INTEGRATED VISUAL WEBSITE CONTENT

Ready to make website building even faster at a higher return on investment? Get instant access to 500,000 high quality images and vectors in the Mono editor for a monthly flat rate.

EASY INTEGRATED EXPERIENCE

To make website content production as easy and as fast as possible, Mono has teamed up with Stock Unlimited (SU). Now you can gain access to their image database directly within the Mono site editor, which means you have more than 500,000 images and vector graphics at your fingertips.

INEXPENSIVE, LOW FLAT RATE

The SU database comes at a low, flat rate to allow for unlimited image and vector access. And with the time you will be saving from not having to search for image content externally (outside the editing experience), the SU database will make future website building even more effective!

UNLIMITED GREAT CONTENT

You will get unlimited access to 500,000 high quality images and vectors from the SU database, which is constantly being updated with new content. Stock Unlimited material can be reviewed at www.stockunlimited.com

NO HASSLE, NO DRM

You don't have to worry about Digital Rights Management (DRM). All SU images and vectors can be used for any purpose and can be edited directly in the editor. SMBs no longer have to worry about buying licenses for high-quality images.

HOW IT WORKS

Finding good images for a website is a constant fulfillment hurdle and a time-consuming exercise. But once you have access to the SU database you will be saving a lot of time on fulfillment.

Once enabled, you can access the SU database through your website's File Manager. For any image function (background, gallery, module, etc.) on the site, simply click on Library and choose the Stock Photo menu. From here you can search the SU database.

Once you've inserted a photo or vector on the site, it is stored in the local File Manager and will be available on the Mono website as long as the site subscription is active.

FAIR PRICING AND IMPROVED ROI

The pricing is simple and follows a monthly billing.

- Premium Package: Gives you unlimited access to 500,000 images and vectors for only 500 EUR/USD per month.
- Standard Package: Gives you access to 100 images and vectors for only 100 EUR/USD per month.

Keeping in mind the many hours you normally spend searching for visual website content, the SU database will also save you a lot of fulfillment time, improving your ROI. SU access is charged on the monthly invoice as Stock Unlimited Access fee. The price is non-negotiable.

SPECIFICATIONS

- No DRM required
- Fixed, flat-rate pricing
- Images and vectors may only be used on the Mono site
- Images cannot be downloaded outside the Mono editor
- Once Premium is enabled, you may use as many images as you want on the site
- If a customer leaves the Mono platform they cannot bring the SU content with them
- SU image material cannot be downloaded to a hard-disk, only to the File Manager
- You can edit SU images using the built-in image editor
- SU can only be enabled for the entire reseller account (accessible for all sites built on the Mono platform)
- It is not possible to enable SU access for individual customers

CONTRACT REQUIREMENTS

You can get a demo access account on a demo site to see if SU is something for you. Enabling full access requires an amendment to your existing contract. Please note that when you purchase Premium access, there will be a 6 month's minimum commitment to SU and you will have a cancellation period of 3 months.
